For Peace and Planet Earth
A Global Pledge Coloring Book

A Word from the Author

Why the Global Pledge and Global Knights Exist

Dear fellow Global Knight,

I created the Global Pledge because I believe something simple: before we belong to any one country, we are all neighbors on one planet. We may speak different languages or follow different traditions, but we share the same Earth—and a responsibility to care for one another.

The Global Pledge is a promise we can all make:

"I pledge allegiance to the Planet Earth, to make it a better, healthier and safer world for all."

It is a promise to try: to choose understanding when we disagree, to work for peace, to care for nature, and to remember that our choices affect others.

Global Knights grew from that idea. I wanted children to know they do not have to wait until they are adults to make a difference. A Global Knight does not need a sword or special powers. Courage can mean welcoming a new student, helping an elderly neighbor, protecting an animal, or speaking up when something is unfair.

Being peaceful does not mean standing by while someone is hurt. Sometimes doing what is right requires bravery. We can protect others, listen carefully, and work toward fair solutions without hatred or violence.

In these pages you have met children from many parts of the world helping in many different ways. Some acts are big; others are small. They all matter. I hope this book gives you not only pictures to color, but ideas you can bring into your own life.

You can be a Global Knight, too. Start with one kind choice today—and another tomorrow.

With hope for our world,
Jerry Schmeer

Coloring Tips

1) **Before you start coloring,** it's really helpful to cut out a small piece of cardboard or poster board that's the same size as your coloring book. Then, put it under the page you're coloring. This is a cool trick because it stops any marks from your pencils or pens from going through to the next picture. That way, all your drawings stay nice and clean.
2) **Layer Your Colors:** Start with light pressure to lay down a base color, then gradually add layers to deepen the color or create shading.
3) **Keep Pencils Sharp:** Regularly sharpen your pencils for precision, especially when working on small or detailed sections.
4) **Experiment with Blending:** For pencils, try blending different colors to create new shades and gradients. You can use a blending stump, a piece of tissue, or even a cotton swab.
5) **Use the coloring practice rectangles below each drawing:** Experiment with color combinations and blending on the color practice boxes before applying them to your artwork.
6) **Control Your Pen Pressure:** When using pens, the pressure can affect the ink's intensity and thickness. Light pressure is key for lighter lines, while more pressure will create bolder lines.
7) **Utilize Hatching and Cross-Hatching:** These techniques, involving creating close parallel lines and crisscrossing lines, respectively, are great for adding texture and depth.
8) **Protect Your Work:** Place a piece of paper under your hand while coloring to prevent smudging, especially if using ink pens.
9) **Embrace Mistakes:** Turn any mistakes into part of your design. Art is often perfectly imperfect.
10) **Stay Relaxed:** Keep a relaxed grip on your coloring tool. It's supposed to be a stress-relieving activity, so don't tense up.
11) **Explore Techniques:** Don't be afraid to try new techniques like stippling (using dots to create texture) or scumbling (using circular, scribble-like motions). Mix and Match pencils and markers to add depth.
12) **Have Fun:** Remember, there are no strict rules in art. Enjoy the process and let your creativity flow!
